METHODIST CONFERENCE IN SESSION

The General Conference of the Methodist Episcopal Church, of great interest to members of the local congregation, is convening in Minneapolis, Minn., and will be in session during the entire month of May. This is the highest legislative body of that denomination and goes into session one month out of each four years, the last conference having been held in Baltimore Md., in 1908. There will be 828 delegates at the present meeting, being composed equally of ministers and lay members. There will be representatives from Japan, China, Italy, India and the islands of the sea some of whom are compelled to travel completely around the world to get to the place of meeting.

It is thought that from eight to ten Bishops will be elected at this session. and this is one of the matters of greatest interest to Methodists everywhere. The General Conference also organizes the great boards of the church, electing their heads and determining their policy for the ext four years.

This conference will have to deal with other vital questions, such as the matter of Bishops having district supervision, the changes in the discipline of the church; the reorganization of the Missionary Societies—and hundreds of matters of smaller moment.

Pittsburgh Conference is represented by the following ministers: Dr. W. F. Conner, Dr. J. W. Cary, Dr. J. B. Risk, Dr. J. J. Hill, and Dr. R. S. Riss. The Lay Representatives are Harry G Samson, of Pittsburgh; Elmer L. Kidney, of Bellevue; James McCune, of McKeesport; James A. Huston, of Sewickley; Norman H. Humphries, of Johnstown and Claude E. Towner of Monongahela. It is altogether likely that Pitttsburgh will be made an Episcopal Residence city by this conference, and a Bishop located in that city to care for the great field to Methodism that lies in Western Pennsylvania, Eastern Ohio and West Virginia.

Mr. and Mrs. Towner of Monongahela have gone to attend the conference and will be absent the entire month. No delegate was sent from the Monessen church.

We give no presents or trading stamps to bribe you to deal with us, but if you want quality and right prices you get them at Kirk's.

BRIDGE COMPANY IS FAVORED BY FINDING

A jury in the Butler county court has just brought in a verdict in the Belle Vernon bridge appeal, by which $75,000 will be awarded to the bridge company. Washington and Fayette counties had set a valuation of $50,000 on it. The bridge company took an appeal and change of venue was necessary. By the decision there will be an increase of $25,000 in the amount for the bridge owners over that which the commissioners of both counties thought to be about the right price. If we remember rightly the price first asked by the company was about $85,000. Hence it will be noted that this compromise by a desinterested jury is a little more than an equal split, favoring the bridge company.

THE DARNDEST MESS OF OLIVES YOU EVER DID SEE

Greer Brothers grocery yesterday received a large cask of real imported Spanish olives, which created much comment from the time it was unloaded at the freight station until it landed at the store. So large is it that it barely went in the large corner door of the store and then it had to be taken in end wise. The cask weighs 1,800 pounds—almost a ton—and is as much a curiosity as was the big cheese which Mr. Greer had some years ago. The olives are fine, big perfect fellows, equal to any put up in glass jars with fancy labels, and they are only 25 cents a quart.

The medals that are to be awarded in the coming Monongahela Valley high school meet are on exhibition at Brenner's jewelry store. The medals are very neat and are well worth trying hard for in the competitions.

Dental Examination of Pupils Favored

Eminent men and doctors of Pittsburg say that the juvenile court is filled because of malnutrition

We favor the examination of all school children by a dentist as well as medical inspectors.

Backward children should by all means have their teeth examined by a competent dentist. We will examine the teeth of any pupil in the schools of Monessen, and tell their parents of any defect without charge.

If any of the scholars are so unfortunate as to have no one to look after them, we will be glad to attend to them without cost.

Coal Goes Out On Big Swell From Up-river

Continued heavy rains over the headwaters have caused a further rise in the rivers, and with a stage of 13 feet predicted today three big towboats with coalboats cleared for the South from Pittsburgh with Monongahela river coal. The Monongahela River Consolidated Coal and Coke Company yesterday sent out the Tom Dodsworth, assisted by the Tornado, with 24 barges of coal. The River Coal Company sent out the Boaz, James Moren and Raymond Honer today. Several model barges, carrying steel and other products, will be taken out in the towns. The Diamond Coal Company will send out 14 barges of coal with the steamer Monitor on Thursday.

This is good news as it means more work for the miners of the section about Monessen, Charleroi, Monongahela and Belle Vernon.

RAILROADER MEETS DEATH BY CANOE'S OVERTURNING

Paul F. Moore, aged 23, of Masontown, a conductor on a Monongahela railroad work train, was drowned in the Monongahela river Monday. J. C. Russell, another railroad employe, had a narrow escape.

The work train had stopped at a siding at New Geneva and Moore and Russell found a canoe moored to the shore and went rowing. The canoe capsized. The men could not swim. Two ferrymen went to the secne, but could only save Russell.

Local Maltas Enjoy Visit to Donora Lodge

Tancred Commandery No. 359 A. & I. O. Knights of Malta of Donora last night conferred the "Mark" degree upon nine candidates, there being visiting members from Monessen, Monongahela and Charleroi. After the regular lodge and degree work a luncheon was served and much enjoyed by all. Those from Monessen were J. A. Reppert. C. S. Shrader. G. C. Shrader, P. P. Bush, Jas. McGavitt, H. E. M. Stemer, Donald C. Baker and Bert Williams, the two latter being candidates of the class of nine who "traveled" the way, or took the degree. All present report a good time.

On next Monday evening Monessen Commandery No. 332 will confer the Malta degree, and representative delegations are expected from Monongahela, Donora and Charleroi. This degree work will be conferred at the regular lodge session.

HILLSIDE SLIDES RIGHT THROUGH THE KITCHEN

Yesterday the hillside in the rear of the home of Edward Taylor, in Park avenue Monongahela, gave way and carried with it a high stone retaining wall. The entire avalanche was pushed through the rear of the house, tearing down the kitchen and entire rear section. Fortunately no person was in that part of the house at that time. The recent rains are responsible for the slide.

MINISTER FACES UGLY CHARGES BY WIFE

That her husband, Rev. G. A. Schoenlein, was a gay Lotherio was the testimony in divorce court today of Mrs. Cora Truesdale Schoenlein at Lima, Ohio, who charges the preacher with flirting with young girls on the street and in making ardent love to a cousin, who he insisted be allowed to live with them at their former home in Castle Shannon, Pa. Mrs. Schoenlein charged that the divine would have the fair cousin sit on his lap evenings and would hug and otherwise caress her before the eyes of his wife. Castle Shannon where the accused pastor once preached is along the Charleroi street car line just beyond Finleyville, and there are a number of people in Monessen who are personally acquainted with the family, and those who know say they had never heard of any family differences until the above appeared on court record.

LOCALS

I. D. Sacket of McKeesport, was business visitor in town this morning.

Mrs. George Jones is spending the day among friends in Pittsburgh.

Mrs. Peter Sotus left this afternoon for a visit with relatives in Pittsburgh.

Mrs. Guy R. Eddy is visiting for a few days at the home of her mother in Elizabeth.

Mrs. R. W. Beck left this morning for a short visit with relatives in Warren, O.

Stella Redlich and John Kesler both of Monessen were granted a marriage license to wed yesterday in Greensburg.

Mrs. I. S. Blattner of McKeesport returned yesterday to her home after a three weeks visit here with relatives.

A marriage license has been issued to Thomas P. Jones and Nancy E. Curtis both of this place in Greensburg.

John W. Hallam the well known contactor is over today from Washington in the interests of the work that the Hallam Construction is doing on the streets and sewers in the lower end of town. Mr. Hallam states that if the weather drys up a little that the work will be completed at an early date.

TO LOCATE A HOME FOR THE HOUN' DOG

Monessen is to have a dog pound. Plans to that end have been drawn up by borough engineer A. W. Johns and the structure for the "homeless doggies" is expected to be finished within the next week. It will not be long before the dogs will have to be muzzled and then the real fun will begin. Ordinance officer Graul will start his crusade against the unmuzzled and unlicensed canines.

The exact location of the dog pound has not been definitely decided upon as yet. It is the intention of the borough to erect a net work fence around an enclosure of 8 by 18 feet, making 3 pens in all, each 6 by 8. By this arrangment, there will be one pen to be used in turn for each day and at the end of every 48 hours the dogs that have not been claimed will be killed.

A large number of licenses have been issued since March 15 and a warning has been posted to the effect that from now on all dogs found without a tag on their collars will be taken in charge. This applies not only to the dogs themselves but the owners will also be apprehended if they do not keep their animals from running loose without a license.

The Scientific American of New York says: Mrs. Sarah Sewell, an Ohio woman, invented a device which cannot be called impractical even if at first blush it does not seem destined to produce an undue amount of cleanliness. Observing her small children at play on a see-saw, she while she worked hard revolving the mechanism of a washing machine, she conceived the idea of making the see-saw do the work, giving her time to enjoy life. And the United States of America set its solemn seal of approval on this idea, giving her a patent for a combined see-saw and washing machine, the illustration of which shows the beauty of possessing at once several children and an inventive brain by which they may be made to wash their own clothes and also have a good time.

The season is yet in its infancy, but the loss of life this summer from boating accidents promises to beat the record. Even yesterday one man lost his life in the Monongahela river by the overturn of a canoe at Geneva. And then, just think of the Titanic for instance.

The brutality of hazing has been condemned in all the higher institutions of learning, and it is said that this form of college prankishness goes to the extent of criminality. This appears to be the case at Martins Ferry, where a student was permanently disfigured by having the figures "13" indelibly burned upon his cheeks. As a result of the outrage several persons outside of the young men directly accused, are likely to become entangled in the net of the law. The acid used was nitrate of silver, provided, it is alleged, by a clerk who deserves to be punished. The hazers have been suspended and will be prosecuted.

A large fortune awaits the death of a cat before it can be distrbuted to the heirs. Ten cents invested in some sort of nice, easy poison ought to put Pussy where all good cats go, and start the cart wheels rolling hither and thither, to the satisfaction of those who are patiently waiting.

We heard it said some time back that if miners went on strike the price of coal would go up. But now that it is settled that there is to be no strike, the logical conclusion would be that the cost of coal should go down. Wouldn't it?

Those who favor the modification of the existing Sunday laws should respectfully address their remonstrances to the state legislature. Neither councilmen nor other city officials have the power to modify or set aside laws. The main duty is to enforce the laws as they find them recorded.

Air baths are said to be coming a fad That would help some in many instances, but it's hard to get some folks to take even that much.

In Philadelphia some very nice ladies are having a whist tournament. Whist? That name sounds familiar, and we wonder where we've heard it before. Wonder if it is played with bats, or if there is any one living in Monessen who knows how to play it.

Some people like to hear themselves talk and then the more they are allowed to talk the more they think they are it. It happens in our midst continually.

This country doesn't have to worry much figuring out who would like to be president. It already knows that, but the query is now, who will be. Or in other words, Who is who?

April left us in a tearful mood, as well she might, since the month has been one of horror on sea and land. It has been many a year since the world has experienced such a tragic April month as that of 1912.

An educator ventures that learning has been made easier. True. Some of it is so easy that it is not worth much when it comes to a show down in plain, every day, practical application.

Slapping the face may be good for the complexion, as a beauty doctor suggests, but it frequently proves disastrous to the other fellow's eyes, so to speak.

Judging from the way this presidential campaign is progressing it might be a wise precaution to equip the Ship of State with a few extra boats and steer a little clear of icebergs.

WHAT'S THE REASON?

Many Monessen People in Poor Health Without Knowing the Cause

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, languor and depression. Likely the kidneys have fallen behind in their work of filtering the blood and that is the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no better remedy than Doan's Kidney Pills endorsed by over one hundred thousand people, and by your neighbors in Monessen.

Mrs. H. L. Coleman, 311 Sixth St., Monessen, Pa., says: "A member of my family has used Doan's Kidney Pills off and on for years and has found them very effective in relieving kidney trouble and backache. I have never used Doan's Kidney Pills myself, but I know that they are deserving of endorsement."

HARD BATTLE FOR THE DOG

Sport Killed the Big Bob Cat, but He Suffered Severely in the Combat.

After a battle in which he came near meeting death himself, Sport, a medium sized coach dog, the property of W. M. Butterbaugh, a rancher living in Lemp's Gulch, Idaho, killed a bob cat that measured six feet from nose to tip of tail.

The dog was terribly scratched and bitten and has not yet entirely recovered. He was mauled by the long, sharp claws of the big cat and in some places the scratches are deep, digging clear to the bone. The cat would weigh half again as much as the dog, and towered above him in height.

Mr. Butterbaugh did not see the fight, but arrived on the scene shortly after the dog had killed the cat and found his faithful friend lying on the ground, unable to move, and scarcely living. It looked at the time like a bad case, but he succeeded in nursing the animal back to life.

"For some days we had been missing chickens," Mr. Butterbaugh said, "and I was unable to figure out what was killing them. I would get up in the morning and find one or two lying dead in the barnyard, still warm, and I could not tell what sort of an animal was doing the mischief.

"But Sport figured it out, and one morning I heard him take out after something. I got up as soon as I could and followed up the gulch, expecting that they would take that trail When I got there I found the dog lying on the ground and the big cat dead.

"The dog had chased him up there, but the cat had turned on him and shown fight. They must have fought there 15 minutes before the battle was settled. And from the looks of both the cat and the dog it must have been a terrible battle."

DODGE THE POSTAGE STAMP

Foreign Countries Devising Schemes for Benefit of Large Users of the Mails.

Any man who can devise a practical substitute for the postage stamp will deserve the gratitude of every large business house in the world, and may earn a large fortune. For the labor of affixing stamps to their enormous mail necessitates in some firms the employment of a special clerical staff.

In the postoffices of some countries steps in this direction have already been taken. Here, for instance, newspapers and magazines are mailed by their publishers in bulk without stamps, and the postage is paid in a lump sum of one cent a pound. Then, again, some firms that send out large quantities of circulars register themselves under a certain number at the postoffice, their envelopes are printed with this number and the circulars so mailed are paid for in bulk. In Bavaria large consignments of letters may merely be postmarked by machinery and sent without stamps, the postage fee being paid in a lump sum at the time of mailing. It is said that since February 1, 1910, this system has saved the Bavarian postoffice the expense for paper and the printing cost for 10,000,000 stamps

A writer in the Umschau, a German publication, suggests a further development of this system along the lines of a meter, like those used for water, gas and electricity, in which the letters would be placed and automatically stamped with a postmark, the machine recording each letter so mailed These machines would be inspected periodically and the bills collected, just as are those of the consumer of gas or water.

Artificial Sponge.

An artificial sponge, the outcome of German ingenuity, is now to be had, according to the Scientific American. The process of making it consists principally in the action of zinc chloride on pure cellulose. This results in a pasty, viscous mass, which is mixed with coarsely grained rock salt

Placed in a press mold armed with pins the mass is pressed through and through until it appears traversed by a multitude of tiny canals, like the pores of a natural sponge. The excess of salts is subsequently removed by prolonged washing in a weak alcoholic solution. The artificial sponge swells up with water but hardens on drying, just like its prototype; it is said to be eminently adapted for filtering water for sanitary or industrial uses and it can be employed for all the purposes that are usually assigned to the genuine article.

Ancient Roman Long Branch.

The sea coast of Laurentum may have been in favor with the fashionable and the wealthy for a brief space of time under Augustus and his immediate successors, but was given up quite soon to parvenues and merchants and retired officers, and the same set of noisy people who haunt at the present day the popular watering places of the world. To make the analogy more striking, an inscription has been found at La Capocotta singing the praises of a wealthy Jew, and revealing the fact that a synagogue had been built at Ostia for the use of the Semitic "villeggianti" on the neighboring coast.

His Misfortune.

"You got a raise in pay. Didn't you?"

"Yes, but it didn't do me any good."

"Why not?"

"I talk in my sleep and my wife found out about it."—Toledo Blade.

OLD CHINESE ROLLS FOUND

Thousands of Manuscripts on Silk Discovered in Grottos by a French Explorer.

Paul Pelliot, the young French explorer of Chinese Turkestan, found in caverns at Tuan-Huang silk rolls which are Chinese manuscripts, some of them embroidered by artists who seem to have stepped out of "The Arabian Nights" These rolls have been immured in these grottos for nine hundred years, and when deciphered and translated will tell the story of a civilization that flourished over a thousand years ago and is dead

The explorer brought back five thousand rolls, but as there are five hundred grottos, he believes many more libraries will be found.

In the last few years archaeologists at work in the Mediterranean island of Crete have unearthed ruins and pottery which prove that civilized people inhabited Greece as far back as the year 2600 B C. The system of drainage in the prehistoric city of Gnossus, in Crete, is more sanitary than any found in any historic age anywhere on earth until the nineteenth century.

The life of the human race upon this planet is being traced further and further back The earliest known civilization is being found to have been preceded by one still earlier One curtain of the past upraised reveals another curtain which the scientists are certain conceals still more secrets.—Minneapolis Journal.

Nature's Beauty Hidden.

Nature, as we all know is never at home to the mere sightseer or idle spectator Stare at her straight in the face, and you will see nothing; it is only the casual side glance which is rewarded by the sight of anything new or substantial.—Henry C Merwin

THE GOLDEN AGE AT HAND.

Scriptural Evidences That Are Astonishing—No One Can Afford to Be Without the Knowledge.

We do our friends a valuable service when we call their attention to the valuable book entitled, "THE TIME IS AT HAND," in which are given many Scriptural evidences to prove where we are on the stream of time.

"Men's hearts are failing them for fear" and many of the leading thinkers are proposing remedies to better conditions The Scriptures assure us that man's extremity will be God's opportunity, and this book holds out an anchor to those who fear the wave of unrest now spreading over the world.

The honest heart confesses that it is at a loss for an explanation of transpiring events While we refer to this as the BRAIN AGE and the Age of ENLIGHTENMENT, nevertheless many realize that we are fast approaching a crisis which is wrapped in darkness owing to the present world-wide social, religious and political unrest.

As though by instinct the whole creation, while it groans and travails in pain together, waits for, longs for and hopes for the DAY, calling it the "GOLDEN AGE"; yet men grope blindly because not aware of the great Jehovah's grand purposes And to his wondering creatures, to whom the length and breadth, the height and depth of the love of God surpassing all expectation He explains "My thoughts are not your thoughts, neither are your ways my ways, saith the Lord, for as the heavens are higher than the earth so are my ways higher than your ways, and my thoughts than your thoughts" Isa 55 8, 9

THINGS ALL OUGHT TO KNOW

As Christian Bible Students—The Satisfactory Proof of "Why God Permits Evil."

One of the questions which comes to nearly every thinking mind today is, "Why does God permit evil?" As we look about us in the world we observe that it is filled with sorrow and trouble, sickness and pain and every trial we could enumerate, and we cannot help wondering WHY GOD ALLOWS IT We realize that He is almighty and that He could prevent it if He wished We read in His Word that He is more willing to do for His children than are earthly parents for theirs, and we know how much that means, yet oftentimes, it seems that those who try to do and live right have the most trouble This question is made very clear in a book entitled, "The Divine Plan of the Ages" Every statement is proved by Scripture, and shows that while God does not sanction evil HE HAS ALLOWED SIN AND DEATH TO REIGN FOR THESE LONG SIX THOUSAND YEARS This and many other subjects of deep interest to all of God's people are discussed fully and in language easy of comprehension

PROFITABLE DAILY TITHING.

"Daily Heavenly Manna"

This little book is having the largest circulation of any of its kind and is conceded by Christians everywhere to be the most helpful.

If Christians allow the rush and crush of selfish ambition to deprive them of their daily portion of heavenly food, they must not be surprised if they grow spiritually leaner day by day, and if the peace of God gives place in their hearts to the discontent which is growing in the world, notwithstanding the multiplication of our comforts and privileges

Daily Heavenly Manna contains a collection of Scripture texts with appropriate quotations for every day in the year Surely the little tithe of time daily spent in partaking of its morsels of heavenly counsel cannot fail to profit all who partake. It is published to do good—not for profit

Your Friends' Birth Dates.

An autograph and birthday record feature in this book is a great convenience Opposite each day of the year are blank lines upon which you can secure the autographs of your friends and be reminded of their birthdays as they occur This makes the book more valuable yearly. In ten years you would not sell it for ten dollars.

Besides it has a place for Birth Records, Marriage Records and Death Records Also it has a table showing the day of the week of any date for one hundred and fifty years.

Printed on bond writing paper, blue cloth, handsome. Price, 35 cents postpaid; imitation alligator skin, gold edges, $1 00 postpaid. Order now. Bible and Tract Society, 17 Hicks Street, Brooklyn, N. Y.

BAD BLOOD CAUSED ABSCESS

How Vinol Saved Mrs. Hall

It took a dangerous and painful experience to prove to Mrs. Hattie Hall that she had let her health run down. In a letter from Schenectady, N. Y., she says: "I was forcibly reminded that my system needed renovating and that my blood was out of order, by the fact that an abscess formed in my side a short time ago and required treatment for several weeks.

"Under the regular use of Vinol to enrich and purify my blood and build up my strength, this was soon healed up and my general health very much improved."

Right now is the very best time of year to put your blood in good order by the use of our delicious cod liver and iron remedy without oil, Vinol. It enriches the blood by adding iron and thus frees it from its impurities. Vinol is wonderfully strengthening and vitalizing for all who are run-down and weak, and we guarantee it to give perfect satisfaction. Hirsch Drug Co., Monessen, Pa.

News Notes of Society

A very pleasureable event of Tuesday evening was a banquet at the New Kilroy hotel, corner of Donner avenue and Third street, at the behest of the First street "500" club, as a fitting ending to a series of winter social numbers, the last of which was held about three weeks past. It had been pre-arranged that there were to be no prizes awarded, but at the end of the series the victorious members of the club were to be entertained by the vanquished. Hence the banquet, and it was an affair which will ever hold a cherished place in the memory of all present.

The hotel parlors and dining rooms had been tastefully and comfortably arranged for the occasion and the tables were prettily decorated with carnations and ferns. And the spread, well it is useless to attempt a description. Every delicacy that could be procured in the market was served with a deftness and delicacy which at once suggested a master hand and capable heads, and to the Messrs. Kilroy, proprietors of the hotel is due unbounded and unlimited praise. It was one of the finest and most elaborate dinners ever served in our town. The credit is surely due "Mine Hosts." Most excellent music was rendered during the evening by Prof. Crimir's orchestra to the delight of the guests.

The entertaining club members who were numbered as the "losers," not as a lack of skill or adeptness at all, but just plain losers' luck, were as follows: Messrs. A. K. Ney, T. S. Adams, E. C. Sattley, N. K. Robertson, W. F. Singer; Mesdames R. H. Thatcher, G. C. Diehl, W. F. Singer, and N. H. Robertson. The more fortunate ones, those who were feted, were: Mr. and Mrs. C. C. Bolig Mr. and Mrs. W. D. Cowan, Mrs. A. R. Ney, Mrs. E. C. Sattley and Mrs. T. S. Adams: Messrs. R. H. Thatcher and G. C. Diehl. Mr. Thatcher took occasion to extend a hearty vote of thanks and deep appreciation to the entertainers for the most complete entertainment of the evening, also to the management of the hotel for the elegant repast served.

The membership of the Methodist church Sunday school are to hold another of those popular "birthday socials" on Friday evening. It will be remembered that this school some time ago tried out this idea with such success that many have requested it repeated. The plan is that all members of the Sunday school whose birthday happens to occur within a time specified, shall act as entertainers, and the idea being quite novel and unique, it proved attractive, he church being well filled and the results very gratifying.

DOMINANT

Over half of the American cars driven by tourists in Europe are Packards, according to registrations in the Paris edition of the New York Herald.

At mountain touring centers in the United States, Packard cars outnumbered all others, according to registrations at the leading touring rendezvous.

The dominant position at once conceded to the Packard "Six" has so spurred the demand for Packard cars that sales for 1912 models in mid-season exceed the total sales of the 1911 season, 77 per cent of the entire 1912 output already having been sold.
